PROFILE

Motivated final-year Computer and Information Technologies student with a strong interest in Front-end Development. Experienced in building responsive web applications using HTML, CSS and JavaScript, with a solid understanding of API integration and basic backend concepts. Highly motivated to learn, grow, and contribute to real-world projects in a collaborative team environment.

PRACTICAL EXPERIENCE & PROJECTS

WEB PAGE DEVELOPMENT (ACADEMIC PROJECT)

- Development of a responsive website using HTML, CSS, and JavaScript.
- Backend development: database creation and frontend-backend integration via API using fetch.

MOBILE APPLICATION DESIGN (TEAM PROJECT)

- Design of the user interface in Figma as part of a team developing an application using .NET MAUI and C#.

STUDENT INTERNSHIP – BH TELECOM D.D. SARAJEVO

- Creation of a database for a webshop and development of simple procedures for process automation.
- Work on Data Warehouse (DWH) systems: data extraction from multiple sources and integration into a custom database.
- Preparing and exporting data for Excel Pivot Tables for reporting and analysis.

TECHNICAL SKILLS

- Front-end: HTML, CSS, JavaScript
- API & basics of backend integration (fetch)
- Databases: SQL
- Tools: MS Office, Canva Pro
- Other technical knowledge: Python, Java, networking basics

NETWORK DEVICE CONFIGURATION (ACADEMIC PROJECT)

- Practical work on network topologies in Cisco Packet Tracer, including VLANs and dynamic routing.

CREATION OF VISUALS AND CONTENT

- Design of promotional materials and visuals using Canva Pro.
- Use of AI tools for generating textual and graphic solutions.
- Adapting designs for social media, web, and advertising platforms.

ADDITIONAL TRAINING

- Participation in web development workshops covering React.js, API integrations, application deployment, and development of a mini project.

SKILLS

- **Content writing and editing:** academic and seminar papers, presentations, and online materials.
- **Educational content creation:** preparation of textual materials, guides, and quizzes.
- **Database work:** SQL queries, data manipulation, integration, and work with DWH systems.
- **Digital tools:** MS Office (Word, Excel, PowerPoint).
- **Technical knowledge:** basic principles of information systems, web development (HTML, CSS, JS), Python, Java.
- **Teamwork and communication:** collaboration with colleagues in technical and educational environments.
